COUNTDOWN TO 2010

This issue will count as your missing July/Aug/Sept issue that failed to be printed. It will include some articles sent to the editor and some facts gathered from the Research Center. It is coming to you as 2010 is bright and new, a new year for our chapter under a new club President, a Census year, and a new year full of hope and promise for our country, state and county. At the December meeting, Reverend Bob **Carlilse** was elected as the president. Mrs Jennie **Gentry** was elected Vice President and Ms. Joyce **Fields** voted Corresponding Secretary for the next term.

Each year for genealogists is a year that could be bringing us closer to a revelation about our ancestors, the tearing down of a brick wall, and locating a whole family in relation to history. Who knows what the year will bring. This past year this editor has found two families leading back to the Seventeenth Century. The Reeder family had been traced back to the 1740's by myself but had failed to go back any farther. I got in touch with a lady who had done research in the state of Maryland and she had done the legwork for me. Mine was another branch of the local Reeder family. This past year, I also got started on a family tree on Ancestry.com where I was able to post and "steal" pictures of my ancestors. It is hard to explain the excitement I get when I find a picture of a person I had been researching for years. I will try to explain the word "steal." Ancestry has a new feature where you can find others researching the same families and capture them for your tree. It also includes pictures and stories that you can put in your tree. Of course, the work should be examined by you to see if it is indeed the person that is part of your family and that the proof offered is good proof. Fortunately, I found my Ward family by getting in touch with people who were related to the sister of my ancestor and they had Bibles, tombstones, and pictures that proved that person was a member of my family.

Alas, I had been researching that family for thirty years. One lady was as far away as Washington State and she and I have corresponded on my husband's family. I didn't mean for this to be a commercial for the site but Ancestry makes its website available as a depository for your tree so it can serve as a backup for all your research. There are some items that are free. For example my family tree is open to all those that might be researching the same persons. The databases like Census' available through Ancestry still must be purchased.

Genealogy gives such a satisfaction- the hunt, the capture of the information and the sharing of the data. I wish for all our members to have the very best experiences in 2010 and may your brick walls come down.

DUES ARE NOW BEING ACCEPTED

One of those new year chores that one has to do is to begin renewing memberships in clubs and organizations. Our club offers a wonderful bargain. As one of the clubs with the lowest memberships in the state, Anderson County Chapter is a bargain beyond all bargains. Please send to our Post Office Box your membership dues addressed to Mrs. Dot Turpin, Treasurer for one of the membership levels. There are three levels, individual \$15, family \$20, and associate (belonging to another SC chapter) \$10.

ATTENTION: If your address or emails have changed, please notify Dot **Turpin**. It is vital that we have correct ones in order to keep in touch with you. Her email is on the back of this newsletter.

QUERY

I'm desperately looking for any information on my Great Grandmother, Elizabeth **Gable**. She's buried in an Anderson SC cemetery & her family comes from there. She never married and had 6 children who moved into Habersham County in Georgia. (she's buried in a pauper's grave, I understand)

I know she was born & died in Anderson and family must have continued to live there since I have a photo of her at an old age marked on the back as being in Anderson. The rest of her family (my grandfather, mother, uncles, etc) were raised in Clarkesville, GA. My Grandfather was in the SC 168 INF 42 Division in WWI & received a Purple Heart.

Since she never married, I'm at a standstill (for 10 years now) as to who her parents were! Can you recommend anyone to help me? I will be more than happy to buy books or pay for anything that can be found. It's killing me! I've searched so long.

Her full name was Sarah Elizabeth Anglentine **Gable/Gabrel**. I believe her Mother's name was Amanda and she was called Mandy.

Thank you,
Shawne Seignious

VOLUNTEER WANTED

Paul **Kankula** is looking for a society member who would like to help accumulate (non-copyrighted) published church histories for scanning. These PDF scans will be keyword searchable and preserved in the USGenWeb Tombstone Project Archives. Accumulated publications will simply be taken to a society meeting and given to Paul Kankula (gccgenweb@bellsouth.net) (The church can also be sent a copy of their history pub scan, if, they have e-mail.)

Visit www.sciway.net for the cemetery holdings webpages to determine if some written history is currently available on-line.

It's possible for him to do scanning of a Public Library's holdings, if, the volunteer makes the scanning arrangement(s) for such. (A typical 40-page history only take 1-minute to scan.) However, the library would need to understand that their published copy will need to be taken apart, so that single loose-leaf pages will result.

NEWSPAPERS ONLINE

The University of South Carolina has received a grant of \$350,000 from the National Endowment for the Humanities for a project that will scan 100,000 pages of old newspapers into an online database. The newspapers will be from all over the state published between 1860 and 1922. Digital librarian Kate **Boyd** will be in charge and the newspapers will be made available through the Library of Congress' database

First Licensed Physician was from the Upstate

(Abstracted from several newspaper articles by Jim **Wigington** and an article written by **Bill Tripp** in William Gilmore **Simms'** History of South Carolina, c. 1922, sent in by Jannifer **Burris**)

William Austin **Tripp** was born and reared in the Brushy Creek township of Anderson County (currently Powdersville area) 21 Sep 1866, a son of John Robert and Harriet "Hettie" Elizabeth **Johnson** Tripp. John Robert Tripp was the oldest son of Elias and Sarah Ann **Smith** Tripp and grandson of John Tripp who had settled on Reedy River in Greenville County. The Elias Tripp family first settled in Pickens County but later they removed to Greenville. John Robert enlisted in the Confederate Army to serve four years. After the war, in May 1865, he married and rented his wife's family farm in Anderson County. He and Hettie had two children, William Austin and Essie Cornelia who married Hubbert B. Smith. Hettie died when the children were small and John Robert married secondly Mattie **Reeve**. Ten years later, he bought land in Anderson County and became a farmer until his death in 3 June 1910.

Will Tripp grew up on the family farm in the Mt. Springs area near where Wren High School stands today. He attended school at Mt. Springs and Cedar Wreath. He met his future wife attending Mt. Springs Church and in 1882 walked to Amanda Elizabeth **Bryant's** house, asked her to marry him and they walked to Piedmont to be married. They lived in a one-room house and soon had three children. One day, he decided that farming was not for him and he thought about becoming a doctor. In fall of 1889, he entered Atlanta Medical College, excelled and graduated at the top of his class in 1894. Graduation, however, did not guarantee him a job in South Carolina. He had to take a test before the S. C. Medical Examination Board. This was the first year that the testing program was required for a license.

The test, given in Charleston, was long and difficult but Will finished first. After the test was over, the proctor told Will to go home and they would notify him by mail. He told the director that he would not go until he knew if he had passed or failed. The board was convinced to grade his paper that day. Because it was the first paper graded, William Austin Tripp became the first licensed physician to practice medicine in the state of South Carolina.

Dr. Will Tripp knew the need was great for professional doctors in the upstate and decided to come back to where he was raised to open a practice. In 1895, he opened an office in the Three and Twenty community of Anderson County. His principal means of transportation was horseback. He had to provide himself with equipment, and even drugs to serve his patients. By 1892, his practice had grown so that he had to buy a two-wheel road cart to travel around the countryside. He was in such demand by everyone, even farmers would call on him to help with their animals since there were no veterinarians. Fights and accidents kept him busy as well as mothers giving birth. Typhoid fever, croup, pneumonia were usually treated with home remedies. It was standard practice before the twentieth century to use the "Four P's" – puke, purge, plaster and phlebotomy (bleeding). Sometimes the cure could be worse than the disease. Of course, as medical knowledge increased, the old-time cures were no longer

used, like treating croup with sulphur and molasses, or using a piece of red flannel greased with tallow and kerosene as a plaster on the chest for colds and pneumonia.

Dr. Will developed an extensive library and continued to learn about his profession. He had a cure for pellagra, a disease caused by a deficiency of niacin in the diet. He was one of the first doctors to treat diabetic patients with insulin. It wasn't long before he soon needed a bigger office and he bought 44 acres of land across the road owned by James **Burdine**, for \$58 per acre, the highest price paid for land in the area to build an office. He and Amanda had nine children together. The eight boys and one girl became great helpers around the farm and grew up to be valued members of the community.

Dr. Will was a member of the Anderson and Pickens Counties Medical societies and the State Medical Society. In 1913, he was elected by S.C. legislature to be a trustee of the S.C. Medical College. He was appointed by Governor **Blease** to be Anderson County Treasurer to fill out an unexpired term, serving in that office one year. He was considered a candidate for the Superintendent of the State Hospital but Dr. Tripp wouldn't accept the office because it meant moving to Columbia. During World War I, Dr. Tripp served on the Exemption Board. His workdays were quite long after putting in long hours working for the Board, he came home to patients at night, who had been waiting all day. It was also during the time of the great Influenza epidemic.

Dr. Tripp was involved in Community affairs such as Woodman of the World. He was a Master Mason and Knight of Pythias. He had a vital interest in local schools and was one of three men who served on a commission to build the first major roads in Anderson County. ~~He remained active politically and often treated Anderson County officers and employees at his home to a "possum and tater supper."~~ This bill of fare was quite a delicacy during the time.
